The free app for the total control of your Klima radiators.
Easy, Smart, for Everyone.
Your home comfort, always and everywhere.

WHAT you can do with **Radialight** app?

Radialight App has been designed to allow you to remotely control the new range of **Klima SMART Dual-Therm radiators** range by Radialight. With the Radialight App you can control your heating system from everywhere and whenever you want.

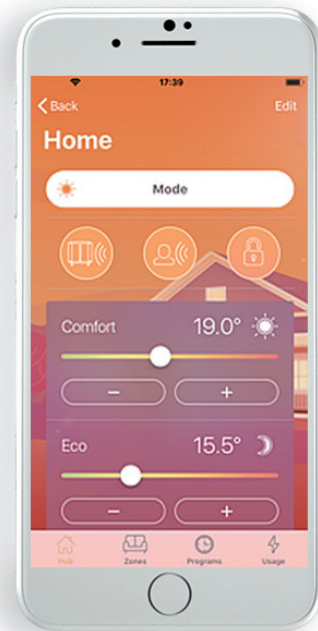

You can manage the comfort of both your domestic space and your holiday residence, thanks to the **Multi-Zone** feature, with just a single account.

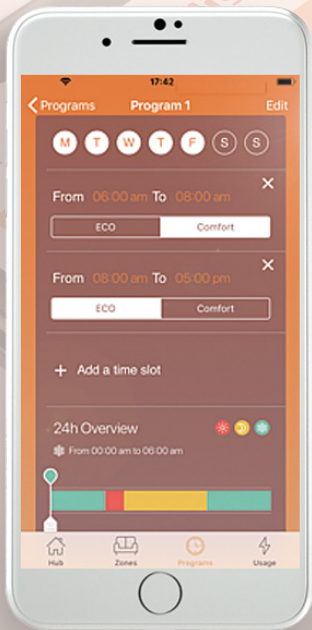

Create zones within your home and control the level of Comfort of each room independently.

Set a weekly schedule with the desired levels of temperature on each Klima Dual-Therm radiator and **improve your energy saving** without giving up your home comfort.

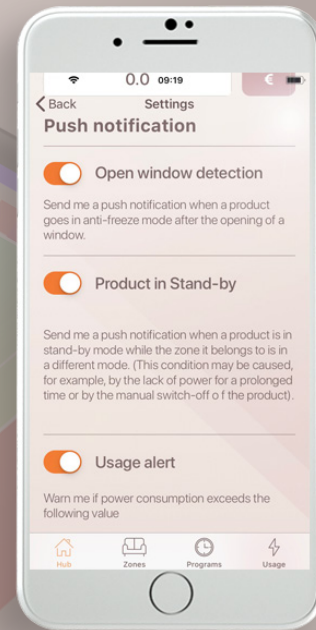

Customize a **weekly heating schedule** for each of the Klima radiator installed in your home, and save energy while benefit of an optimized comfort exactly when and where you need it.

Real time Energy consumption report and statistics for the last 24 hours, 7 or 30 days and estimated costs per single radiator or zone. Keep an eye on consumptions to maximise your heating system efficiency.

Push Notifications for Open window Detection, Exceeded consumption values and Radiator Status update. A set of skills to **control your heaters intelligently**.

YOUR COMFORT, WHEREVER YOU ARE!

Download today the **Radialight App** and make the most out of your Klima Radiators heating system.
